

# C-USB-MULTI

10-into-1 multiple charger and USB sync adapter cable

## A single charge and sync solution for all your devices.

Do you have multiple digital devices such as iPhone™, iPod™, Blackberry™ or Sony PSP™ for example, but are fed up with hunting for the USB cables, or having to purchase the manufacturers expensive 'device specific' versions?

The new **C-USB-MULTI** from LMS Data is your ideal solution for users with a myriad of digital devices, phones, smartphones, tablets, MP4 players and game consoles and the like, which all use there own specific charge/sync connector. The **C-USB-MULTI** features 10 different connectors as used on almost 90% of the world's devices, all of which are connected via a generous but compact ribbon cable to a standard USB connector, so you can plug into your Windows, MAC or Linux Computer and charge and sync.

Unlike inferior devices on the market the **C-USB-MULTI** has the capability to charge multiple devices connected to it at the same time, negating the need for more than one USB port on your computer.

Fully compatible with file transfer applications such as iTunes™, Blackberry™ and other 3<sup>rd</sup> party utilities, the **C-USB-MULTI** is your ideal companion for your digital lifestyle!

Fully USB2.0 compatible

Generous 15cm cable lengths

High quality device connectors

Unique, flat ribbon cable for long life

The only sync or charge cable you need

Charges multiple devices at the same time

**BlackBerry**

*Compatible with Apple™, Android™, Blackberry™, Samsung™, Sony™, Nokia™, Motorola™, LG™, Tablets, MP4 Players etc*
