

# PBK-68

Mobile power charger for your Smartphone, Tablet or gaming device

## The rechargeable power station for your mobile digital lifestyle.

Have you got the latest Smartphone, computing Tablet, MP3 or gaming device but are fed up with low-battery warnings when your out and about?

Modern devices are basically, small dedicated computing devices using power hungry CPUs, high-energy wireless communications and of course bright, high resolution colour displays. All of this creates a heavy load on the devices internal batteries, even the latest generation Li-ion battery technologies.

The new, completely rechargeable **PBK-68** from LMS Data is your ideal companion for all your mobiles devices. Featuring a high capacity, 3000mAh rechargeable battery, all in a stylish, aluminium design, not much bigger than an AA battery. Total charging flexibility is assured since it uses a standard USB-port for charging your device, including iPod™, iPhone™, Android™ and Blackberry™ compatible devices – simply use your existing USB charge cable!

## Featuring...
